Contents

Feature of This Issue

Metallogenic prognosis types and resource potential analysis of mirabilite deposits in China LI Dairong, SONG Chongyu(1)

General Geology

Petrogenesis of the Qingdunxia complex in the southwest Beishan Orogen and its tectonic implications
..... WU Tinghuang, TONG Ying, SUN Beilei, WEN Xueqin, ZHAO Qing, SUN Huiyi, YANG Wei(12)

Chronology, petrogeochemical characteristics and geological significance of potassium feldspar granite in Pangzhangzi pluton, western Liaoning
.....HE Tao, ZHANG Jianren, HUANG Jing, LI Qian, ZHANG Defu(30)

Geochemical characteristics and genesis metallogenic significance of bimodal magmatic rocks in Zhaxikang, southern Xizang
..... HU Yingyou, CHENG Yukang, ZHANG Gangyang, YI Jiyao, QIN Zhipeng(41)

Comparative analysis of characteristics and differences of organic-rich shale reservoirs in western Hubei Province
.....WEN Jianhang, ZHANG Hao, WANG Yi, DUAN Ke, ZHANG Yanlin, XU Lulu, XIE Tong, SHI Xianbin(58)

Economic Geology

The discovery and significance of lithium-rich claystone in the Middle Permian Liangshan Formation in southwestern Hubei Province.....
..... LIU Shengxin, DU Wenyang, REN Xu, ZHOU Ding, LIU Lei, HONG Tao, LIU Xiaoyang, WEI Sihua, KONG Lingyao, ZHANG Changlin(69)

Distribution characteristics and controlling factors of critical metals (Ge, Ga) in the coal-bearing strata of the Guxu area, southern Sichuan
..... LONG Zhengjiang, WU Yonggui, ZHU Xushuang, LIAO Junqiao, XIAO Rang, LIU Ce, SHI Yu(84)

Research on key controlling factors of Jingchong copper-cobalt deposit in Northeast Hunan Province, China
..... GAO Zhuolong, NING Juntao, LIU Wenhao, SUN Huashan, KANG Bo(95)

Geochemical characteristics and metallogenic significance of Caledonian granite in Nanwenhe tungsten deposit, southeastern Yunnan
.....XU Yiyue, ZHANG Jianqiang, ZHANG Lujia, PU Xingming, YANG Xiuzhi, ZHANG Long, ZHANG Gangyang(111)

Isotopic compositions of H, O, S and Pb of the Haoping and Meizigou gold deposits, northern Qinling Orogenic Belt, and their geological implications ...
.....LIANG Tao, LU Ren, ZHANG Yu, CHEN Junkui, HU Honglei(124)

The metallogenic regularity and metallogenic series of gold deposits in Henan Province
..... LI Zhaoyi, LI Zhongming, ZHANG Yu, LI Xiaolong, PENG Yi, LIANG Tao, SHEN Jianhai, LUO Xue(135)

Study on the provenance and enrichment mechanism of rare earth elements in argillaceous rocks from the Yangjuan Area, Yuxian, Hebei Province
..... WANG Yanbo, ZHANG Xingkang, CHEN Wenliang, PAN Shuo(151)

Geological-engineering sweet spot evaluation for low-permeability reservoir: A case study of the Sha 3 section of a certain oilfield in Bozhong.....
..... HU Nachuan, PANG Shuyi, XIAO Dakun, LUO Jianguhua, TIAN Nan, JIA Shanpo, LIU Xudong(165)

Exploration Technology

Multi-source information integration driven prospecting model based on SSA-CNN: A case study of Qibaoshan continental volcanic hydrothermal deposit
in the southern margin of Jiaolai Basin.....PENG Xuefeng, JIANG Liping, CAI Tu, CHEN Yao(175)

Metal ore exploration in the Xiadulunhudong area based on Euler deconvolution
..... GAO Zilong, GONG Feng, LIANG Tian, WANG Tieji, WANG Huisong, SUN Pengfei(185)

Hydrogeology, Engineering and Environmental Geology

Ecological risk assessment and source apportionment of typical heavy metals in soils from a mineral agglomeration zone
..... CAI Jiaming, CHEN Xin, XU Hongtao, YAN Xiaofeng, CHEN Xu(197)
