

Mineral Exploration

2026 Vol.17 No.2

Contents

Feature of This Issue

Strategic demand and international game of new energy metal minerals.....TENG Jiwen(209)

General Geology

Geochronology, geochemistry characteristics and tectonic significance of meta-hornblende gabbro in Shengshuiyu area, western Shandong Province..... ZHANG Long, ZHANG Xingkang, LIU Yang, LIU Jiyong, XU Haojie(234)

The response of the Cambrian Furongian carbon isotope excursion event in northern Henan region CHEN Yonglin, CUI Zhen, BAI Guodian, CHEN Jianbo(246)

Geochemical characteristics of source rocks of the Madongshan Formation in the northern part of Liupanshan, Guyuan, Ningxia and its distribution.....WANG Cheng, MA Yanyun, HE Qingzhi, MA Fenghua, WANG Donggang, MA Xuedong, LU Maoxin(257)

Analysis of organic geochemical characteristics of shale in member 7₃ of the Yanchang Formation, Ordos Basin ZHOU Jing, DAI Chaocheng, ZHANG Yu, WU Lei(268)

The impact of heterogeneity characteristics of fluvial facies single sand bodies on oil-water distribution and development: A case study of K oilfield in the Bohai Bay Basin WANG Hui, HAN Guannan, WANG Fei(282)

Analysis of rock drillability characteristics of high stress strata in Junggar Basin based on cohesion modelYANG Ximing, ZHU Liang, LI Jun, LI Yumeng(290)

Economic Geology

Discussion on the sedimentary metallogenic model and prospecting prediction model of Wuzhengdao bauxite in Guizhou Province..... DU Hongyi, LI Yuanhong, YUAN Qingsong, TIAN Heli, CHEN Qiang, LI Xinnian(299)

Relationship between the genesis of the Xiaozhuang granite and uranium mineralization in the Xiaozhuang uranium deposit, northern Guangdong..... XIANG Kaiyi, TIAN Shihong, LIU Jiawen, GONG Yingli, LI Haidong, HUANG Changqi, LIANG Zhengwei, GENG Xianlei, GU Zebo(310)

Overseas Exploration

Metallogenic geological characteristics and genesis of the large ilmenite placer deposit in the Karlgura Region, Southern Northern Territory, Australia ZENG Zihua, WEI Degui, LI Mengying(325)

Application of integrated geophysical exploration methods in gold exploration on the western margin of the Rwamagaza Greenstone Belt, Tanzania.....QI Dong, ZHANG Weixi, SHAO Jiangbo, MAO Jinbiao, CHAI Lijie(336)

Exploration Technology

A comprehensive evaluation method for the oil and gas migration capacity of follow-source type faults to shallow layers and its application GUO Xinyu, DU Xianli(345)

Technical Methods

Numerical simulation study of mining overburden bed separation grouting slurry diffusion law HAO Yankui, WEN Shuaixin, YUE Peng, YANG Hao, YAO Wentao, KOU Tianhao, GAO Zexin(363)

Hydrogeology, Engineering and Environmental Geology

Analysis on characteristics and influencing factors of geothermal field in a certain mining area of Zhenxiang, Yunnan..... LOU Jingmin, XU Shiguang, LI Xian, REN Bowen(378)

Stability evaluation and treatment methods of excavation of a rock-soil mixed high slopes in a quarry GENG Xuefeng, WU Zhibin, ZENG Jiangbo, Feng Shengjian, GU Dongming(389)

Dynamic landslide susceptibility assessment using time-penalized trees algorithm with time-series InSAR data: A case study in Zhengzhou City, Henan ProvinceXU Tongjian, QI Yake, LI Zheng(403)

Research on geological hazard risk assessment in Xinglong County, northern Hebei Province based on AHP-information quantity modelGENG Wanqing, WANG Wenchuan, YAO Wansen, XU Hongbin, LIU Qi, XIA Yongwei, LI Anna(417)

New Letters

Wolframite U-Pb age of super-large tungsten-beryllium-fluorite deposit in Mahuaping, northwestern Yunnan and its geological significance ZHOU Guochao, WEI Hongxia, CHENG Xianfeng, YANG Demin(428)
